

About Us

ExornoGILT was founded in February 2009 with the aim of covering new market requirements to support procurement and marketing departments to reduce business internationalization efforts and costs.

ExornoGILT is a category specialist for procuring translation, localization services and recommend collaborative technology solutions to further reduce costs, improve process efficiencies and increase service levels.

Our Cost Savings value proposition:

1. We help buyers reduce costs by opting for a cost-effective network of translation, localization and technology suppliers. While maintaining the quality, we do proceed with a spend analysis, should-cost model, sourcing of technology, migration and training plan and reduce your procurement and translation costs from 10% to 50%.
2. We help companies generate better profits at no cost to them.
3. We take all our subject expertise that we have built up for more than 18 years and use it to save costs.
4. We monitor the projects across 14 months to guarantee that all cost savings benefits get implemented.

ExornoGILT.com is also an independent portal and we do offer approved supplier profiles in the most accurate and structured way to buyers. Our aim is to facilitate approved suppliers for buyers that are looking for reliable partners to export their product content or services.
